

**PAKISTAN AFGHANISTAN  
JOINT CHAMBER OF COMMERCE  
AND INDUSTRY (PAJCCI)**

**3rd Trade Delegation  
From Afghanistan to Pakistan  
September 28, 2013**

## **Pakistan Afghanistan Joint Chamber of Commerce & Industry: A Profile**

The formation of Pakistan-Afghanistan Joint Chamber of Commerce and Industry (PAJCCI) is a breath of fresh air for both the countries. Despite existing political upheavals and sensitive socio-cultural issues, the push for economic collaboration from business community across the border has always been explicit. The economic platforms are eagerly rethinking their bilateral relationship and discussions are underway with respect to reviving the economic ties, curtailing smuggling and preventing flow of prohibited goods. This pressing need was sensed by business representatives in both the countries and they mutually agreed to establish a cooperative body on a private initiative in order to bring the business communities of the two countries closer together.

Pakistan Afghanistan Joint Chamber of Commerce & Industry (PAJCCI) is a joint collaboration between Karachi Chamber of Commerce (KCCI), Chaman Chamber of Commerce (CCCI), Khyber Pakhtoonkhwa Chamber of Commerce (KPCCI) and Afghanistan Chamber of Commerce (ACCI). The entity is duly recognized and licensed by Islamic Republic of Afghanistan as well as Islamic Republic of Pakistan.

The core objective of this trans-border arrangement is not only to transform the economic landscape of the South and Central Asian region but also to facilitate peace prospects and to curb extremism and terrorism. The Chamber was established having members of Business and Industrial community with a motive to provide level playing field for promoting the bi-lateral trade and investment, ensuring transfer of technology, exploring new trade opportunities and areas of mutual interests, alleviating illegal trade and promoting positive image of both the countries across the globe.

It would also be a catalyst to easing out any pressures induced by Political or Legal framework in the respective countries in the most appropriate manner possible. It was agreed between the two sides to ease trade between the two countries and all problems or hurdles are done away with. It was also decided to resolve the issue in board amicably and then put forward to respective governments. It was agreed mutually that this platform will not only resolve trade based issues amicably but would strategize on the macro-level to facilitate respective Governments to revive bi-lateral political relationship as well, in the greater interest of both the countries.

Under the visionary leadership of Mr. Muhammad Zubair Motiwala (President, PAJCCI) and Mr. Khan Jan Alkozai (Co-President, PAJCCI), the Chamber will facilitate Pakistan to gain access to the Central Asian States via Afghanistan and would further enhance the trade opportunities. The Chamber will serve to ensure win-win situation for all stakeholders and will serve as a body to enhance trade relations between two brotherly nations without succumbing to any unrelated political or cultural influence.

## Message of the President PAJCCI

The formation of Pakistan-Afghanistan Joint Chamber of Commerce and Industry (PAJCCI) is a breath of fresh air for both the countries. Despite existing political upheavals and sensitive socio-cultural issues, the business representatives in both the countries mutually agreed to establish a cooperative body on a private initiative in order to bring the business communities of the two countries closer. The entity is duly recognized and licensed by Islamic Republic of Afghanistan as well as Islamic Republic of Pakistan.

The core objective of this trans-border arrangement is not only to transform the economic landscape of the South and Central Asian region but also to facilitate peace prospects. The Chamber was established having members of Trade and Industrial community with a motive to provide level playing field for promoting the bi-lateral trade and investment, ensuring transfer of technology, exploring new trade opportunities and areas of mutual interests, minimizing cross border trade and promoting positive image of both the countries across the globe.

It was agreed mutually that this platform will not only resolve trade based issues amicably but would strategize on the macro-level to facilitate respective Governments to revive bi-lateral political relationship as well, in the greater interest of both the countries.

As a Founder President of this unique Chamber, it would be my utmost priority to ensure win-win situation for all stakeholders by resolving long pending issues between Business Community amicably, and help provide facilitation to the business community across the border in the greater interest of both the nations. The Chamber will serve as a body to enhance trade relations between two brotherly nations without succumbing to any unrelated political or cultural influence.

I greatly welcome feedback and support of all the stakeholders in order to run this Chamber more effectively towards attainment of cross-border mutual goals. I also thank members of the Executive body for posing confidence in me to lead this Chamber in its critical first year. I hope that members of this body will play significant role in effectively reducing the issues and enhancing bi-lateral ties between Pakistan and Afghanistan, in every aspect.

My visit along with Executive Committee and Members of Business Community to Afghanistan would InshaAllah prove to be a leap forward in the enhancement of bi-lateral and trade relations between the two Countries.

Muhammad Zubair Motiwala

## Message of the Co-President PAJCCI

Pakistan is our Muslim brother country. We share with Pakistan more than 2000 km of border, same religion, history, culture and language. Pakistan has been a route of transportation for Afghanistan since the 18th century. Pakistan and Afghanistan both play a key role in the ancient Silk Road. Pakistan Karachi port is the shortest and cheapest to connect Afghanistan with the rest of the world. Afghanistan is the most important route for Pakistan to connect with the Central Asian Countries. Central Asian Countries with a population of close to sixty million people can become a market for Pakistani products with a potential of twice the size of Afghanistan itself. Today, whatever Pakistan can produce, has a market in Afghanistan; from food items to pharmaceuticals and manufactured goods.

It has been necessary to bring both the countries under one roof which would help enhancing bilateral trade and relations between the two countries. Establishment of the PAJCCI is the foremost step taken to connect both the countries in different sectors. PAJCCI will help facilitate the traders across the borders to establish and access businesses, investment, export and import. I am also of the opinion that the minor problems existing, on both sides of our common border- that cannot be solved due to bureaucratic hurdles, will be ironed out by our mutual efforts and under the umbrella of PAJCCI. So I would encourage the business community on both sides of the border to get membership of PAJCCI and support the step we have taken to develop a better business relations and economic development for both the countries.

Khan Jan Alokzai
